

Final Project Showcase

PUBH 6199: Visualizing Data with R, Summer 2025

Xindi (Cindy) Hu, ScD

2025-06-26

Final data visualization product

Choose one from the following three options:

- **Same Question, Different Audiences (3 static charts)**: *Create three visualizations that answer the same question, each designed for a different audience (e.g., general public, policy makers, technical experts).*
- **Same Data, Different Questions (3 static charts)**: *Use the same dataset to answer three different but related questions, each with its own focused visualization.*
- **Interactive Dashboard (1 app with 3 components)**: *Build an interactive dashboard (e.g., with shiny, plotly, or similar tools) that includes at least three visual components for exploring your data dynamically.*

Accompanying your visualizations, you should also include a **write-up around 500-1000 words** that consists of an introduction, research questions, data sources, data wrangling, data visualizations, findings, and conclusion.

Final project presentation

- **10 minutes** presentation
- What questions do you set out to answer with your visualizations? Why are they important?
- Your **data source** and why they are chosen to answer your questions
- Your intended audience
- Two to three **visualization design choices** and how they help tell your story
- Two to three **takeaways** from your visualizations that your audience should remember
- **Live demo** of your visualizations (if applicable)
- One to two **challenges** you encountered during this project and how you overcame them
- One to two **achievements** you are proud of in this project
- The presentation format is flexible, bring your laptop to present, and submit the presentation and final data visualization product as **HW6**

Final project showcase schedule

Team	Members	Time slot
Homer	Alia Jamil, Nina Wubu	3:30 - 3:40 pm
Marge	Amel Attalla, Belen Zemas	3:45 - 3:55 pm
Take a quick break	All	3:55 - 4:00 pm
Bart	Sora Ely, Ashlan Jackson	4:00 - 4:10 pm
Lisa	Riya Belani, Molayo Ifebajo	4:15 - 4:25 pm
Maggie	Jordi Fischbach, Ahmed Shah	4:30 - 4:40 pm
Fill out peer evaluations	All	4:40 - 4:50 pm
Tally peer evaluations	Teaching team	4:50 - 5:00 pm
Announce award winners!	All	5:00 - 5:10 pm

Announcing Award Winners

Congratulations to the following winners!

~ Drum roll, please ~

Smoothest Pipeline Award

For piping it all together with grace and clarity.

Team XXX

-
-

Cleanest Data Workflow

For untangling the mess and tidying like a pro.

Team XXX

-
-

Most Stunning Visualization

For plotting like an artist and letting the data speak.

Team XXX

-
-

Best Shiny App

For making your data shine with interactivity and style.

Team XXX

-
-

Best Quarto Report

For seamless communication of complex work through a polished and reproducible report.

Team XXX

-
-

Best Team Collaboration

For showing that collaboration is the most powerful package of all.

Team XXX

-
-

Thank you for a great semester!
